Characteristics of a Puzzle

Do you recall the 5 characteristics of an Escape Room puzzle? Read the following example of puzzle and asses if it fulfills the criteria for a good puzzle. Give reasons for each characteristic it satisfies.

You enter a room. Across it, there is a complicated maze covering the wall. A small key is locked up on the bottom-left corner of the maze. Follow the maze and find the exit in order to release the key. But first! To unlock the maze and start playing, you need to do the math in the middle.
