

# Post-creation Checklist

**First, go through your Google Form entirely.**

- Does everything work? No missing link between question, no dead-end link? No missing clue or faulty puzzle?
- Is the whole serie of puzzles coherent?
- Does the reason to answer in Google Form make sense? Does the puzzles fit the story?

**Now, make a beta test with some colleagues or children.**

- Make them answer the same questions as above as well as:
- Did they solve the Form? If not why? Were there issues with the design?
- How much time did it take?
- Did they have fun?

 Erasmus+ **Modify and improve if needed.**
